OF EMERGENCY SERVICES

# **SITUATION SUMMARY**

## **Waterman Incident, San Bernardino City, San Bernardino County**

- On 12/02/15 at 1123 hours the California State Warning Center (CSWC) was advised by the Cal OES Southern Region Administrator of an active shooting incident in San Bernardino City.
- Incident was located at the Inland Regional Center – State of California Department of Developmental Services, 1365 South Waterman in San Bernardino City.

## **Activations**

- The San Bernardino County EOC at Level I as of 1205 hours in support of the Waterman Incident.
- San Diego County EOC was activated at Level I. As of 1800 hours, they have returned to Duty Officer status.
- Los Angeles County EOC is activated at Level I .
- Cal OES Southern Region REOC is activated at Level I in support of San Bernardino, Los Angeles, and San Diego Counties.
- Caltrans District 8 activated their EOC at Level I and deactivated as of 1545 hours. Caltrans DOC activated as of 12/02/15 at 1300 hours and deactivated at 1545 hours.
- The Inland Counties Emergency Medical Agency (ICEMA) Department Operations Center (DOC) was activated at 1125 hours.

## **Deployments**

- Cal OES Assistant Chief (AC) Art Torrez (OES 5216) is at scene.
- Cal OES Law Deputy Chief Dennis Beene is at scene. Cal OES Law Enforcement Chief Mark Pazin responded to the incident and has demobilized.
- The Cal OES Law Branch LEOC was opened and AC Dan Dailey was in position at the LEOC. As of 1815 hours, the LEOC has been deactivated.
- The Cal OES Southern Region Administrator Mona Bontty and Cal OES Southern Region Duty Officer (SDO) Sonia Brown are at the San Bernardino County EOC.

## **Resources**

- There are 2 Local Government Type-1 Strike Teams staged at scene along with 1 Local Government Fire Medic unit.
- Per the Regional Disaster Medical Health Specialist (RDMHS) via the Emergency Medical Services Authority (EMSA) Duty Officer:
  - Two Advanced life support (ALS) ambulance strike teams have been requested from AMR Riverside.
  - One Basic life support (BLS) ambulance strike team has been requested from Mission Ambulance.
  - Riverside County hospitals have received patients from this incident.
  - Patients still remain on scene and patient distribution is still underway.
  - Additional staffing and resources are not needed at this time.

# **SITUATION SUMMARY**

## **Waterman Incident, San Bernardino City, San Bernardino County**

### **Healthcare Facilities**

- CHHS put Patton State Hospital, Metro SH, and Fairview Developmental Center on precautionary lock-down. All Regional Centers in that area have been contacted and are on lock-down as well.

### **Schools**

- The City of Fontana Unified School District has activated their Emergency Operations Center as a precaution only.
- Per San Bernardino City Unified School District there is a districtwide lock-down of schools and offices. Students will be released at the normal time.
- All classes will be open for class tomorrow, 12/3/15

### **Infrastructure**

- Metrolink Service (San Bernardino Line 308) is stopping at Rialto Station until further notice due to Waterman Incident.

# **SITUATION SUMMARY**

## **SPILL: 15-7069, Coachella, Riverside County**

- On 12/02/15 at 1425 hours the California State Warning Center (CSWC) received a Hazardous Materials Spill Report: 15-7069, advising of a natural gas leak in Coachella, Riverside County.
- Per the Riverside County EMD duty officer via the Cal OES Southern Duty Officer:
  - At 0800 hours on 12/02/15, a gas line rupture occurred across the street from Coachella Desert Academy prompting the evacuation of 1,000 students that were reunited with their parents.
  - The school is expected to reopen on 12/03/15.
  - The gas leak has been contained.
  - There are no unmet AFN unmet needs.
  - There is no request for state assistance.
- The CSWC made all appropriate notifications per the Hazardous Materials SOP.

## **Proclamations**

- A Signed Resolution has been received from the City of Fresno declaring the existence of a local emergency due to an inoperable natural gas line at 2103 N. Angus Street, Fresno, California. There are no requests for State assistance.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

- A moderate winter storm will bring wind followed by snow to the Sierra Thursday. The majority of the snow impacts will be Thursday afternoon through Thursday night and focused in the Sierra and northeast California. Delays and chain controls are likely due to accumulating snow.
- A series of storms originating in the Gulf of Alaska will likely produce two separate northwest swells for the Central Coast Friday and Monday. Surf heights of 10+ feet are possible beginning Thursday night and building on Friday. On Sunday night a second swell will arrive, building on Monday when 15+ feet surf heights are possible. The highest surf will be on west and northwest facing beaches on both days. These surf conditions will produce dangerous rip currents, minor beach erosion, and sneaker waves that can inundate beaches and overtop jetties and rock walls.

# Key Points

12/03 – 12/09

## Thursday-Friday

- Minor travel hazards, possible power outages and blowdown of weakened trees over burn scars due to:
  - Gusty winds in Sacramento and Shasta Valleys and near the Sierra Crest Thursday
  - Winter driving conditions on slick roads above 5000 ft near Mt. Shasta and in the Sierra Thursday night into Friday morning

## Saturday-Wednesday

- Weaker periods of precipitation for Northern CA Sunday and again Monday, but no significant impacts expected
- Next stronger system with better chances for Sierra snow impacts beginning next Wednesday night

Saturday

# WEATHER

## WEATHER SYNOPSIS BY REGION:

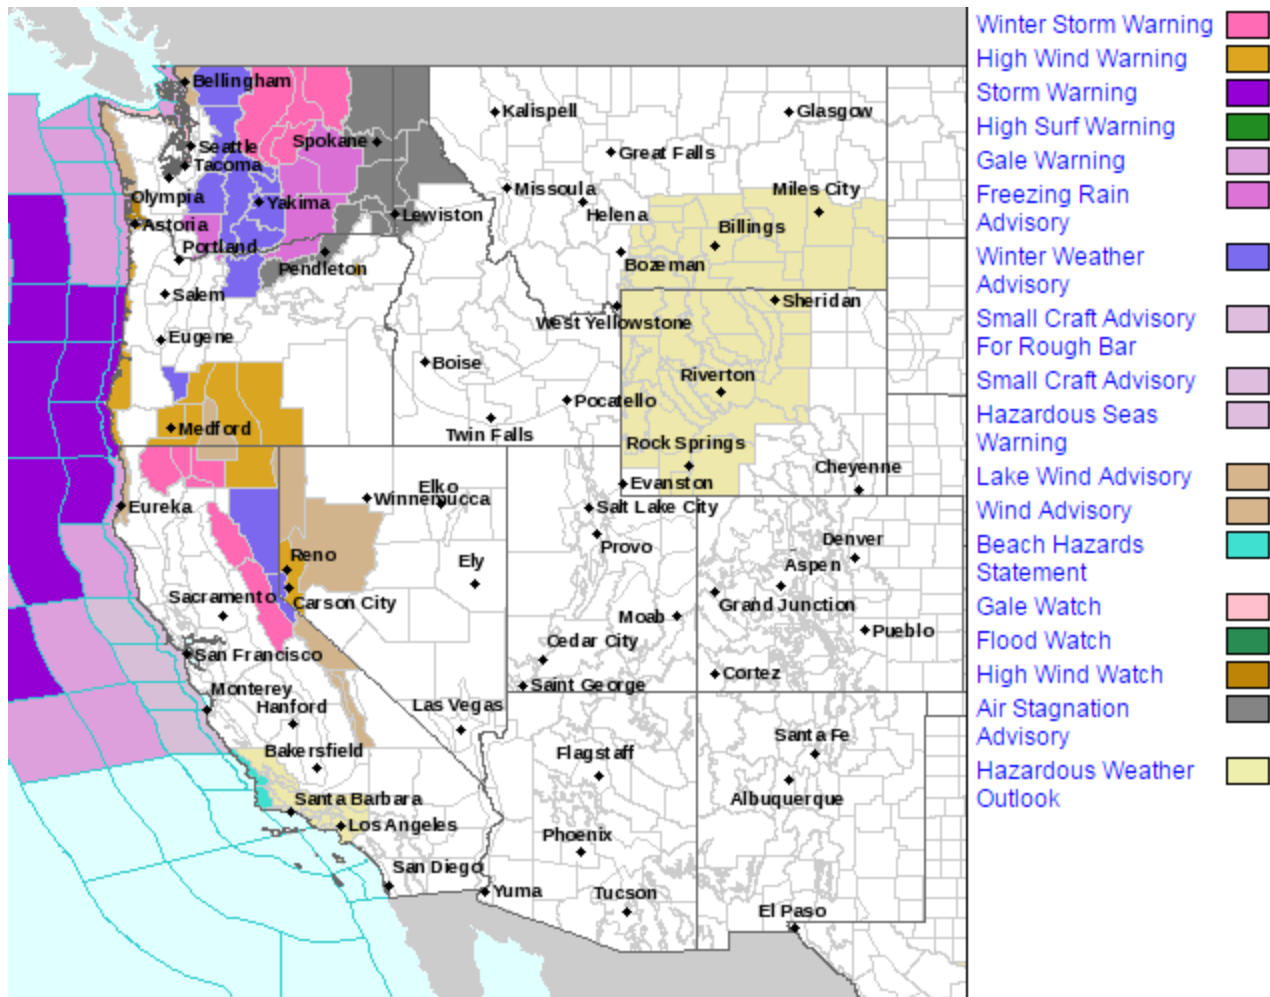

### **NORTHERN CALIFORNIA**

A series of weather systems will be moving through Northern California over the next 7 days. A weak system will be over the Geographic Area today with some showers, mainly in the northern areas. A much stronger system will move into the region overnight and Thursday with some gusty winds. Snow levels are expected to drop to around 4000-4500 feet with Thursday's system, and precipitation amounts will generally be something like a quarter to half an inch in the rainfall areas with 4-12 inches of mountain snow (deepest at the higher elevations). The south central and SW areas of Northern California will generally see the lightest amounts of precipitation. There will be a break between systems at times, which currently appear most likely Saturday and about next Tuesday. Temperatures will remain close to seasonal normals. Gusty SE to S winds are expected today in the far northern areas. Increasingly strong SE to SSW winds will develop tonight and become fairly widespread across Northern California as the next, stronger weather system moves into the region Thursday, then decrease Thursday evening. Wind speeds of 10-20 mph with gusts 25-35 mph will be quite common, and in the Shasta Valley and at the higher elevations speeds will be on the order of 15-25 mph with gusts 45-60 mph possible.

### **SOUTHERN CALIFORNIA**

A ridge of high pressure over California will warm temperatures to 5 to 10 degrees above normal today, with 50s to low 60s in the mountains and upper 60s and 70s in the valleys. A few lower elevation locations across Southern California will reach the low 80s today. Minimum humidity will be in the single digits and teens across Southern California and between 20% and 40% across Central California today. A Pacific trough will move inland to the north bringing cooling to the region Thursday and Friday, especially across Central California. Scattered showers will move across Central California Thursday afternoon through Thursday night, with most locations expected to receive less than a quarter inch of rainfall. The snow level will be around 6,000 feet. No rainfall is expected south of Santa Barbara County with this trough. There will be westerly winds of 15 to 25 mph with gusts to 40 mph through the desert passes Thursday afternoon through Friday morning. Once this trough passes to the east, another ridge of high pressure will form over California bringing above normal temperatures and very low humidity to most of the region Saturday through early next week. Northeast to east winds of 15 to 25 mph with gusts to 40 mph will surface across the mountains and below the canyons and passes of Southern California Friday night through Saturday afternoon.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.
